Iteration2 Features	
(Faculty) Login and register	Yes
(Student) Login and register	Yes - User model is not split into Faculty/ Student classes yet - just uses a field to differentiate them. The User registration does not include form elements for selecting "elective courses" .
Restrict the access to content pages when the user is not logged in?	yes
Restrict the access to faculty pages /routes when for student users?	No
(Faculty) Create research positions	Yes (according to TA notes) - The form doesn't submit and no error message is displayed.
(Faculty) View the list of the students who applied for their positions	No
(Student) View the open research positions. The information of the position (title, description, start/end dates, etc.) should be displayed.	Yes
(Student) Apply for research positions.	Yes (according to TA notes) - I could not apply a position from a student account.
Overall design of the application	Overall good.
Is the application easy to use? Are the forms easy to fill in?	Yes
Additional Features	
(Faculty) View the qualifications of each applicant	No
(Student/Faculty) Edit profile	Yes (according to TA notes) - The form doesn't submit and no error message is displayed.

Instructor's comments:	Your code need to be tested further. As I mentioned above couple forms don't submit.
TA Comments (demo):	Can filter posts + apply for positions and withdraw - can edit profile information. Having a few issues w/ some people's code not running properly even though they have the same version - mainly w/ form submission. Overall ver-y complete solution w/ some very nice styling
Iteration2 Score (code only)	89
